The Institution has excellent academic, research, and extra-curricular facilities effectively utilized by well-qualified and dedicated faculty and over 7800 students. UG, PG, and PhD programmes are offered in the fields of Engineering, Management, Science and Humanities. The excellent facilities on the 700-acre campus of this fully residential, co-educational Institution include a fully air-conditioned library that stacks more than one lakh books and subscribes to 350 hard copy journals besides thousands of electronic journals. There is a fiber-optic LAN serving around 4000 computers on campus and 64-Mbps internet connectivity.

The Department
The Department of English is one of the research departments specializing in language studies and a wide range of literature fields. The department also works in interdisciplinary research areas. The curriculum is designed giving equal importance to Language and Literature and taking into consideration the inputs of experts from reputed academic institutions, including international organizations. Since the University follows the choice based credit system, the students are given the freedom to choose their own specialization.
