

It gives me great pleasure to say with pride that I have completed my graduation from Karunya University. I consider it as a God given opportunity to earn my Bachelor's degree from this college. Karunya University offers a blend of learning, amusement and integration of enduring principles. As a Mechanical Engineering student it provides a wide arena of the field and thus I got to learn something new with every subject. The entire study environment makes it easy for a student to learn and inculcate the spirit to stand out amongst the talented and hard-working students. One of the best thing about the college is the plethora of extracurricular activities that the Institute offers to students to explore and pursue his/her extra talents. The relationship between faculties and student is very cordial, which gave me an opportunity to excel in my area of interest. By God's grace I was able to score a 9.23 CGPA and got placed in Accenture, Infosys, ABS Aircon Engineering Pvt Ltd. and Utility Projects and services Pvt Ltd. All in all, Karunya University provides every student exactly what they need for life. Proud to be a Karunyan!
