

## 1. Testimony of ASHISH CHRISTY VARUGHESE UR16ME046

My name is Ashish Christy Varughese, a B.Tech. Mechanical Engineering graduate from the 2016-2020 batch.

My four years at Karunya have been great, and have built memories that I will cherish forever. The university is situated at the foothills of the Western Ghats and is quite simply a great place to be. The best thing about the university was in being part of a supportive environment. The teachers helped us a lot and encouraged us to succeed as professional individuals ready to face the real world. Thanks to the collective support I received within the college from the faculty and all online resources available, I was able to excel in my academic work. I graduated from Karunya with a grade of 8.61 CGPA.

My experience at Karunya was made even more breath-taking with the addition of the courses offered by AMZ Automotive. We managed to build two vehicles from scratch whilst acquiring valuable knowledge. We also fabricated a few rally vehicles and competed in a national rally event, which later won us a lot of trophies. In gratitude towards the various training programs provided for placement opportunities, I was able to get placed in Accenture, which was indeed a huge accomplishment for me. However, since my interest is towards mechanical design and manufacturing, I will be going for higher studies.

I thank Dr P. Jayaseelan, Dr Godson Asirvatham, Dr Sabitha Jannet, Dr Joseph John Marshal, Dr Helen Unius Backiavathy, all the teaching and non-teaching staff, my friends and my family for all the support and encouragement.

## 2. Testimony of ATINDERPAL SINGH UR16ME032

My name is Atinderpal Singh, a B.Tech. Mechanical Engineering graduate from the 2016-2020 batch.

My four years of stay at Karunya Institute of Technology and Sciences had been great, with lot of cherishable memories. The faculty members in the department were very much friendly and encouraged me a lot to succeed and became a skilled professional to face the challenges in the world. Through the able guidance and support of faculty members in the department, I excelled in academics and extra circular activities and successfully graduated with 7.3 CGPA on a 10 point scale.

Industry oriented technical skill development training was given to me through AMZ Automotive, an industrial research center installed in the department. Practical skill development training on making Go-Kart, All Terrain Vehicle (ATV), Formula 3 and Autonomous Vehicle was given by AMZ. I fabricated a Quad-bike and participated in a national event called RCDC (Rally Car Design Challenge) and won many medals to the department. I also got placed in Byjus - The learning App with 13 Lakhs Per annum, which was indeed a huge accomplishment for me. However, since my interest is towards mechanical design and manufacturing, I will be going for higher studies.

Finally I wish to express my heartfelt thanks to all the faculty and staff members of the Mechanical Engineering department for their sincere support and constant encouragement for the successful completion of my B.Tech Mechanical Engineering program.
